

# Curriculum Vitae

**Public Health Physician · Data Scientist** — digital health & epidemiology Kuala Lumpur, Malaysia · vivekjason1987@gmail.com · vivekjason.com · ORCID 0000-0002-8131-9878 · Google Scholar

I'm a public health physician and data scientist. Most of my current work at the Ministry of Health Malaysia is in digital health — health-data interoperability and enterprise data analytics — alongside continuing research in epidemiology and infectious disease.

## Experience

- **Deputy Director, Analytics & Informatics** — Digital Health Division, Ministry of Health Malaysia · 2024–present Health-data interoperability and enterprise data analytics across the ministry.
- **Public Health Specialist** — Sector for Biostatistics & Data Repository, National Institutes of Health · 2022–2024
- **Guest Lecturer / Workshop Trainer** — Universiti Malaya & International Medical University · 2023–present
- **Instructor** — Applied Epidemiology (Applied Epi / WHO WPRO) · 2023–present

## Education

- **DrPH**, Doctorate in Public Health — Universiti Malaya · 2019–2022
- **MPH**, Master of Public Health — Universiti Malaya · 2018–2019
- **MD**, Medical Degree — Universitas Padjadjaran · 2007–2013

## Selected publications (of 27 · first author unless noted)

- Assessing the relative vaccine effectiveness of a fourth COVID-19 dose on hospitalisation: an emulated target trial — *Vaccine*, 2025
- Effectiveness of COVID-19 vaccines among children 6–11 years during Omicron predominance — *Scientific Reports*, 2024
- A rapidly scalable, low-cost public-health surveillance reporting system for COVID-19 — *BMJ Health & Care Informatics*, 2024
- Building AI readiness for health in Southeast Asia (co-author) — *Lancet Regional Health – W. Pacific*, 2025
- Estimating excess mortalities due to the COVID-19 pandemic in Malaysia — *Scientific Reports*, 2023
- The epidemiology of COVID-19 in Malaysia — *Lancet Regional Health – W. Pacific*, 2021
